

Project Manager – Cape Town

Afroteq Advisory is offering an opportunity for you to play a pivotal role in the continued success of our established, professional advisory service to the built environment sector.

If you thrive in a culture that promotes ownership and initiative and rewards innovation and excellence, you will appreciate the prospect to lead and manage multiple key projects within our fast-growing industry.

Afroteq is a multi-disciplinary integrated company providing advisory and training services to the built environment sector since 2000.

Afroteq is a Level 2 BBBEE contributor and is ISO 9001:2015 and ISO 41001:2018 accredited. Our people are skilled and knowledgeable. We work in partnership with our clients, appreciating and understanding their business and managing service delivery using a project based business model.

Successful Project Management requires the understanding that outstanding client relationships, good ethics and a collaborative approach are at the core of business development and winning contracts.

As a diverse national team, we are looking for a leader who embraces the commitment to the detailed communication and feedback needed to manage outputs aligned to business requirements.

Your role will require you to take responsibility for costing, estimating, planning and overseeing multiple projects from initiation and development to execution and follow-up, ensuring best value is obtained for all stakeholders. Our success as Afroteq Advisory will depend on your ability to understand consolidation with various disciplines within the organisation and to never let go of your service-driven approach to exceed client expectations.

As a Project Manager, your primary focus will encompass managing budget, risk and quality, as well as sales and business development, tenders and contracts.

You will use your proven planning and management skills in the built environment to set project goals and deliverables based on client needs, long term strategy, legislation, best practice and efficient business solutions. You will enjoy achieving the client retention and project profitability generated by your untiring ability to meet project milestones within timeframe, quality and cost requirements.

Additional requirements that support success in this role:

Your Diploma/ Degree in the built environment and minimum 5 years' experience managing multiple projects within this deadline-driven industry will enable you to understand, plan and implement building projects efficiently and manage contractors within the boundaries of applicable legislation.

Your successful project management will also extend from your ability to confidently handle negotiations and conflict situations across all levels, while acknowledging the richness of cultural diversity across our teams and client relationships.

If the challenge of achieving company goals through managing leading projects within this dynamic sector energises you, this significant role could be your next career move.

To apply, please email your CV to jobs@afroteq.co.za before **28 September 2018**.

As a proudly South African brand, AFMS Group (Pty) Ltd, are committed to transformation and employment equity. The filling of this position will be in line with our employment equity goals.
